	Examiner John M. Jillions	Art Unit 3654	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: the reference to various claims throughout the description is considered improper and should be deleted (i.e. page 2, lines 1-2 and 29-30, page 3, lines 4 and 5); and page 11, line 4, “and 192” should be deleted.

Appropriate correction is required.

Drawings

2. The drawings are objected to because the “drive arrangement 170”, page 9, line 24 is not numbered in the drawings. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 17, "evening it out" is unclear as to what "it" is referring to in this phrase. It should be amended to state that both ends of the material are evened out. The term "it is possible" in claim 2 is considered vague as to whether the "winding container" is meant to be a positive part of the combination.

Allowable Subject Matter

5. Claims 1-10 would be allowable if amended to overcome the indefiniteness mentioned above. These claims are allowable since the prior art neither shows nor renders obvious in the combination of element or steps as set forth in independent claims 1 and 7 respectively the provision that the first gripping arrangement which linearly advances the leading end of the material to the winder also grips the trailing end of the material to even out the ends of the material

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Rodriguez and Shah are cited to show fiber optic cable winding devices.
